- To complete the Nintendo WFC setup, you will also need access to a PC that has a wireless network device installed (such as a wireless router) and an active broadband or DSL Internet account.
- If you do not have a wireless network device installed on your PC, you can order a Nintendo Wi-Fi USB Connector (sold separately) directly from Nintendo. See the separate Nintendo WFC instruction booklet for more information.

- You can also play Nintendo WFC-compatible games at selected Internet hotspots without additional setup.
- The Terms of Use Agreement which governs Nintendo Wi-Fi Connection game play is available in the Nintendo Wi-Fi Connection instruction booklet or online at [www.nintendowifi.com/terms](http://www.nintendowifi.com/terms).
